## **DETAILED ACTION**

### ***Response to Appeal Brief***

1. By filing an appeal brief with arguments, applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

### ***Allowable Subject Matter***

2. Claims 1 and 4-15 have been allowed.

### ***Reasons for Allowance***

3. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest a method for transmitting channel quality information in a wireless communication system comprising at least one base station and at least one mobile station, the method comprising: **varying a rate for reporting channel quality information from a mobile station to a base station as a function of the presence or absence of a reception of a data transmission at the mobile station**, wherein **the mobile station reports channel quality information at a first rate in the absence of a reception of a data transmission from the base station and, upon detection of a reception of a data transmission from the base station, the mobile station reports channel quality information at a second rate for a prescribed duration** as in claim 1; a method for adapting the rate of reporting channel quality information in a wireless communication system including at least one base station and at least one mobile station, the method comprising: **reporting channel quality information from the at least one mobile station to the at least one base station at a first**

**rate in the absence of a reception of a data transmission at the at least one mobile station (as of claim 11); and a method for transmitting channel quality information in a wireless communication system including at least one base station and at least one mobile station, the method comprising: varying a rate for reporting channel quality information from a mobile station to a base station as a function of the number of base stations with which the mobile station is communicating.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Balachandran; Krishna et al. (US 6108374 A) disclose a system and method for measuring channel quality information.
